📍 College Park, Maryland, US | ✉ [peyman.jabarzade@gmail.com](mailto:peyman.jabarzade@gmail.com) | ☎ (240) 413-7609 | 🔗 [pjabbarzade.github.io](https://pjabbarzade.github.io) | [in peyman-j-1566a991](https://in.peyman-j-1566a991)

## Education

<b>Ph.D. in Computer Science</b> , University of Maryland – College Park, US	Jan 2022 – present
<ul style="list-style-type: none"> <li>• <b>Field:</b> Theoretical Computer Science</li> <li>• Designing algorithms for fundamental graph theory problems and optimizing submodular functions in the dynamic model.</li> </ul>	
<b>M.Sc. in Computer Engineering</b> , Sharif University of Technology – Tehran, Iran	Sept 2019 – Dec 2021
<ul style="list-style-type: none"> <li>• <b>Field:</b> Algorithms and Computation</li> <li>• Studied geometric graph problems in the massively parallel computation (MPC) model.</li> </ul>	
<b>B.Sc. in Computer Engineering</b> , Sharif University of Technology – Tehran, Iran	Sept 2015 – Aug 2019

## Awards

<b>Dean's Fellowship</b> , University of Maryland	Jan 2022 – Dec 2023
<b>Asia West Champion</b> , International Collegiate Programming Contest (ICPC) World Final	Apr 2018
<b>14th Place</b> , ACM International Collegiate Programming Contest (ACM-ICPC) World Final	May 2016
<b>Bronze Medal</b> 🏅, International Olympiad in Informatics (IOI)	July 2015
<b>Gold Medal</b> , Asia-Pacific Informatics Olympiad (APIO)	May 2015
<b>Gold Medal</b> , Iranian National Olympiad in Informatics	Sept 2014

## Experience

<b>Software Engineer</b> , Balad (Map and Navigation App) – Tehran, Iran	Sept 2018 – Nov 2021
<ul style="list-style-type: none"> <li>• Enhanced service stability and scalability and optimized inter-service communication as part of the infrastructure team.</li> <li>• Developed and took ownership of Balad's core service for managing and providing location-specific data.</li> <li>• Led a diverse team of 10 technical members to collect and clean location-specific data and refine service design with microservices.</li> <li>• Primarily wrote code in Python, with additional experience in C++, Java, Go, and various other tools.</li> </ul>	
<b>Research Intern</b> , Max Planck Institute for Informatics – Saarbrücken, Germany	July 2019 – Aug 2019
<ul style="list-style-type: none"> <li>• Designed and benchmarked an energy-preserving online scheduling algorithm.</li> </ul>	
<b>Software Engineer Intern</b> , Balad (Map and Navigation App) – Tehran, Iran	June 2018 – Aug 2018
<ul style="list-style-type: none"> <li>• Designed and implemented a novel algorithm for optimal routing of camera-equipped cars, ensuring comprehensive street coverage in Tehran within the minimum time.</li> </ul>	

## Publications

<b>A Dynamic Algorithm for Weighted Submodular Cover Problem</b> 📄	July 2024
41th International Conference on Machine Learning (ICML 2024). <b>Accepted for oral presentation</b>	
<b>Prize-Collecting Steiner Tree: A 1.79 Approximation</b> 📄	June 2024
56th ACM Symposium on Theory of Computing (STOC 2024).	
<b>2-Approximation for Prize-Collecting Steiner Forest</b> 📄	Jan 2024
ACM-SIAM Symposium on Discrete Algorithms (SODA 2024). <b>Invited for a special issue of ACM TALG</b>	
<b>Dynamic Algorithms for Matroid Submodular Maximization</b> 📄	Jan 2024
ACM-SIAM Symposium on Discrete Algorithms (SODA 2024).	
<b>Dynamic Non-monotone Submodular Maximization</b> 📄	Dec 2023
37th Conference on Neural Information Processing Systems (NeurIPS 2023).	
<b>Dynamic Constrained Submodular Optimization with Polylogarithmic Update Time</b> 📄	July 2023
40th International Conference on Machine Learning (ICML 2023)	
<b>A Novel Prediction Setup for Online Speed-Scaling</b> 📄	June 2022
18th Scandinavian Symposium and Workshops on Algorithm Theory (SWAT 2022)	

Volunteer Experience

---

Coaching2020 – 2023

- Coached the University of Maryland’s team for ICPC 2023, leading them to a silver medal at the North America Championship and advancing to the world final. [1, 2]
- Led Iran’s national team for IOI 2020, achieving 3 gold and 1 silver medal—the best result for Iran in IOI.
- Coached Sharif University of Technology’s team in the ICPC 2020 World Finals.

Scientific Committee2017 – present

- Member of the Host Scientific Committee (HSC) for IOI 2017.
- Judge for the ICPC North America Championship 2024.
- Member of the Iranian National Olympiads in Informatics Scientific Committee for 6 years.
- Contributed to the preparation of the ICPC Tehran Regional Contest for 6 years.

Task Author2015 – present

- Authored the problem "Rectangles" for IOI 2019.
- Managed numerous programming competitions and authored problems for selecting Iran’s national team for IOI.

Technical Skills

---

**Programming Languages:** Python, C/C++, SQL

**Technologies:** Docker, Kubernetes, Kafka, gRPC, REST, Sentry, Redis, Prometheus, Grafana, ElasticSearch, Logstash, Kibana
